

## **The 2024 season of the Fim Enel MotoE World Championship concluded with the debut of the Aruba Cloud MotoE team.**

---

The last two races of the **2024 Fim Enel MotoE World Championship** were staged today at the **Misano World Circuit Marco Simoncelli**, and Hector Garzo won the title.

The **Aruba Cloud MotoE** team has been in a season of apprenticeship, working hard to gain the experience necessary to compete at high levels in a constantly growing category.

In both races held at Misano, **Chaz Davies** and **Armando Pontone** finished in fifteenth and sixteenth position respectively. For the Welsh rider, who also holds the role of riders' coach for the Aruba.it Racing - Ducati team in WorldSBK, 35 total points gained during the season, 12 more than his team-mate.

Aruba Cloud wants to thank the riders, technicians and all the team members for their hard work and commitment in the first chapter of this fascinating adventure.

### **Chaz Davies (Aruba Cloud MotoE #7)**

*"I am pleased to have embarked on this adventure even if the results have not met expectations. But I don't have any regrets; on the contrary, I thank Aruba Cloud for allowing me to get back on track and put on the racing suit again. I am sure this season has been propaedeutical for the team's future".*

### **Armando Pontone (Aruba Cloud MotoE #80)**

*"MotoE is a very demanding category, especially for a rookie rider. The sessions are concise, and finding continuity is not easy. However, we did a great job with the team, improving weekend after weekend until we could lap with much better times than at the start of the season. I want to thank the whole team for their commitment and professionalism and Aruba Cloud for giving me this opportunity".*
